

Provider Verification and Selection Guide

Domain: PROVIDER_KNOWLEDGE | AssetBridge AI Knowledge Document

1. Contractor Credentialing Standards

All plumbing, electrical, and structural contractors registered on AssetBridge must maintain national vocational qualification (NVQ Level 4 or equivalent), CIDA registration, and verified business registration certificates.

2. Identity and Background Verification

Local representatives personally inspect contractor physical business locations, national identity cards (NIC), and minimum 2 verifiable references from past residential projects.

3. Historical Performance & Rating Metric

Contractors are scored based on 4 criteria: On-time arrival rate (>90%), Quotation variance accuracy (<10% deviation), Customer satisfaction score (minimum 4.2/5.0), and Warranty compliance history.

4. Tier Classification & Dispatch Bounds

Tier 1: Emergency & Structural Specialists (Approved for budgets up to 250,000 LKR). Tier 2: General Maintenance Contractors (Approved up to 75,000 LKR). Tier 3: Minor Task Technicians (Approved up to 25,000 LKR).
